EDUCATION

Bachelor of Science in Exercise Science; Minor in Nutrition; GPA: 3.5

May 20xx

University of Massachusetts Lowell, Lowell, MA

TECHNICAL SKILLS

Testing: Maximal and submaximal VO2 tests, Bruce/Modified Bruce Protocol Stress Test, Cycle Ergometer Anaerobic Power Output (Wingate), Gait Analysis (Traditional, RLA), Kinematic Analyses, Functional Movement Screening, 1RM Strength Tests, Skin Fold Test, Blood Pressure, PNF Stretching

Software: MS Word and Excel; SPSS 10 statistical software

ACADEMIC PROJECTS

- **Research Methods in Exercise Physiology** (Spring 20xx):
Conducted an in-depth literature review on the connection between gluten sensitivity and neurological disorders; synthesized findings into a research summary and presented conclusions using APA format and evidence-based analysis tools.
- **Exercise Physiology II** (Spring 20xx):
Partnered with a team of four to develop individualized, sport-specific training programs for middle school athletes through a local community partnership; used fitness assessments (e.g., vertical jump, shuttle run, heart rate monitoring) to tailor strength, endurance, and flexibility plans based on developmental needs.

EXPERIENCE

Exercise Physiology Intern

Jan. 20xx – present

Cardiac and Pulmonary Rehab, Lowell General Hospital, Lowell, MA

- Lead 12 one-hour cardiac and pulmonary exercise classes weekly, each with 3-8 patients.
- Administer and review patient health questionnaires prior to each class, making any needed adjustments.
- Check patient EKGs for ischemic changes and monitor vital signs during classes.
- Write exercise prescriptions based on assessment results to address issues.
- Teach patients about proper exercise strategies, breathing techniques, and diet/nutrition.
- Monitor patient adherence to protocols and report on patient progress.

Sales Associate

May 20xx – Dec. 20xx

GNC, Tyngsboro, MA

- Advised customers using in-depth nutrition and product knowledge to support health and fitness goals.
- Matched product recommendations to individual needs through goal-oriented consultations.
- Researched the benefits of products to support customer education and store training resources.

Lifeguard

Summers 20xx and 20xx

YMCA, Lowell, MA

- Ensured safety of children through monitoring of pool and always enforced facility rules and policies.
- Responded quickly to emergencies and maintained a calm, professional presence under pressure.
